Austrian Patent Office
C.C. Mag. Walter Tomaschitz

Dear Sir,

I had a letter send to you on Jan. 13, 2004. But you were still refused respond for our two arguments, I was astounded to feel miserable!

The arguments one, under the Rule 16.2 (iii), the search authority of Austrian Patent Office must to refund the search fee to Singapore office, because the Austrian Patent Office was to take advantage of with find an excuse intentionally to refuse to give me the search report, Austrian Office must apologize and compensate the huge loss for postpone to get the patent or loss of even may not get patent for applicant! The Austrian Patent Office must still to censure in international society and to tote of the ill reputé for bear malice to conceal medical achievement in humanity historical!

In formal, the Singapore patent office has the responsibility to find another search authority to complete report quickly!

The arguments two, which is after all who should to be filed including the translation and national fee (pay by applicant) to each designated Office to complete designation in the designated office?

The Singapore office received SGD \$890 for entering all PCT designation office to confirmation application, obviously, then the translation and national fee pay by applicant and afterward file by receiving office to enter the designated office for get an Application Number, this was to taken the designation and confirmation fee to work of promise! The Application Number is only testimony to confirmation; the PCT treaty is not necessary to describe so!

Is filing the application into the designated office by applicant self? It is again what to pay the designation and confirmation fees? Need not to argue, the Singapore patent officer Mr. Chig Kam Tock was to be much embarrassed to tell me, the designation and confirmation fees could to be refund! But this is civil rights and it to be in the service of promise, is not that to fail to keep faith?

The PCT laws were definitely and you break the law and inhumanity!

The receiving Office shall must Under the PCT Article 11 (1) (b) "the designation of at least one Contracting State" ...provided that that Office(designation office) has found that, at the time of receipt, so on the "final provisions" under PCT Article 62 (1) to "deposit of an instrument of accession" in Designation State to service to receiving an instrument of the designation office! Because the receiving Office had taken the Basic fee that includes the transmit fee, the responsibility of receiving Office was simple this way!

PCT International Bureau to divvy aapplicant's Basic fee, designation and confirmation fee, the legal stipulation was undoubtedly, applicant paid the translation and national fee to pass through the receiving Office into the designation office it has been so for quite some time, therefore, you must to correct the wrong immediately! You must stop to use authority of office to assistance before the Chinese government to conceal medical accomplishment!

You must to know a thing or two, the conceal and murderer was no difference, the assistance concealer same the accomplice too!

I saw a report on HK TV on Feb.19, 2004, the confession by the Dean Mr. CHUNG Sheung Chee Sydney of Faculty of Medicine of Hong Kong Chinese university at a hearing at the SARS Examination Committee of legislation-meeting of Hong Kong, the Dean confess frankly him does not to agreed (to conceal) the cure SARS means, but Dr. Chan of Director health of HK Government told: " need not to fear! This is a secret order of centralization (China Gov.)..."

I saw a report on HK TV on Oct of 2003year, the SAR Gov. Mr. Tung of chief executive of Hong

Kong said that if WHO official had professors accepting our treatment to cure the SARS, we will also follow suit! In another word, the WHO officer must bear the historical charge for concealing medical accomplishment!

You may be despise to his sincere advice or you in the process of to contemplate may be get how many benefit by your assistance to conceal!

The HK wenweipo newspaper and www.Chinanews.com.cn to belong to China Gov. and the report only by them on Dec.27, 2003, about the former China chairman Mr. Jiang Zemin's son Mr. Jiang mian heng used high salary two million USD to employ Bush president's younger brother Mr. NeilBush and to send free pretty woman into the NeilBush's hotel room every days in HK and China. But that make people unaccountable was in the large type a title to powerful and influential that: "Scandal or affect the re-election of elder brother" .

The general to think, that it was the involved party want self erupt is insidious! It had person also to think, the USA president Bush had to hold somebody under duress! The Cheap not to covet is ways of the world for philosophy!

I remember, I had a letter which was referred to the Singaporean premier:

" It was quite obvious that the PCT Singapore Office had violated the stipulation of pct that is regret more further angry for me, I am a new immigrant and Singapore is immigrant country. Because of the fear for SARS, after the Singaporean premier Mr.Wu Zuo Don has to cancel his visit Shanghai! Meanwhile, my invention is the only means to cure SARS and had helped the Singapore country not to fear SARS again in the last ten-days period of May of this year!"

It had so much tidings to reveal, the SG officer's behaviours influence from the secret order of former China Government, the premier was in advance two years to leave job for balancing the oppose-pressure and the China Government was to send a ostentatious and extravagant of 1000 travel group borrowed by China life insurance company name, in a hurry into Singapore, the purpose has shown that obey the secret order of China can to exchange the aid of China for return extensive national economy!

I hope premier Mr. Wu can see this letter, I understand the difficulty and to have no way out for the premier, the secret order from the former China Government leader, the secret order was highly absurd, applicant will must look into this case, nevertheless, help to conceal medical accomplishment with stand in human civilized opposite it will not succeed.

Use administrative power to damaged PCT or national honour to interchange the money or beauty woman or continuity for power which were origin of our arguments, please avoid the argues in international society!

Yours faithfully,

Dear.

Dr. Julie L. Gerberding

In the news from Paris yesterday, I knew that about as in cure SARS to publish opinion by Dear honorable director!

I agreed by the inspection systematic was improvements and SARS to break out of opportunity possibility was decreasing, but in you believed for profess, the treatment method for SARS now had no a kind of that can belief in completely and that comments have been quoted by Chinese's newspaper to deceive the masses again. Why does this say so?

I was inventor of the newest of medical scheme is "Surface Treatment of SARS-Infected Lungs", due to the urgency of saving lives, the draft was fax to the Hong Kong chief executive and Chinese leader on 15 May 2003. The English version was also forwarded to "WHO-Padey", "WHO-Liden" by Mey-Verme, Mrs Cnia (WDC) and the leaders who were holding the Geneva meeting on 20 May 2003. Therefore, you are impossible to not known the medicine of the PFC+O3 is only can entering to the lung directly killed the SARS and efficiently! But your newspeak is just opposite the fact! Perhaps you feel probably that help China Gov. to conceal the invention of the "Surface Treatment of SARS-Infected Lungs" can get huge benefit, but it had violated the Misrepresentation Ordinance of US law and more importantly letting down the people of every country include American! China Gov. to conceal the invention is immoral and not splendid behavior.

Now, they were utilized the country-means and power to prevented inventor pass through the PCT application for patent of countries in secret, please see the attach of my letters to the International Searching Authority on Oct.29, 2003 and Mr. Francis GURRY of PCT International Bureau of WIPO that in best Officer on Oct. 31, 2003, the famous international organization that should become the accomplice of violates human rights!

Actually, purposed to tacitly-consent for violated human rights aim at me which paid to the benefit between country had appeared beginning from 9'11 that times. I should not forgot a name is the Mr. Tony Liu of HK consulate officer called me on Sep. 26, 2001 pm 4:00, he was said: "... you could rest assured to apply patent application notwithstanding, I representative American Gov. thank for you! ..." because I had invention of the "Three Measures for Air Flight Safety" sent to USA in HK Consulate and delivered to President Bush, therefore, you can verify President Bush was announce appropriation five-hundreds millions U.S. Dollars to refit the US own passenger plane on Sep. 27, 2001. But China through the diplomatic means of the Hong Kong Gov. to request do not acknowledge, in view the news report in all Chinese mediums it can find in trade trace that was very obvious, why China Gov. does not oppose Taiwan to buy weapon from America? Why the Director-General Mr. Zhu Bang Zhao of Information Department of China had been dismissed then after he was published opposes sell weapon to Taiwan forbid use principle exchange firmly? At the June 2002, on Asia-Pacific safe forum of Singapore told why the diplomat of China do not dare to call the roll to criticize America sell weapon for Taiwan weakest conduct at gatherings created a lot of comment why the former premier Mr. Li Kingyou also unclear why submit to humiliation hence he was mediated the dispute for that reason it was the leader of China is hurrying in change class and so on? Two consuls of US around term at the time, they were professing in open occasion repeatedly that had identical ideas for common benefit of Hong Kong and America? If China was tacitly consent to sell weapon Taiwan by America? Obviously, America can get country-defense benefit, is opposite, it is not namely the America must refuse Lin 's patent apply in USA to change?

If above-mentioned inference is not fact, please see the attach two, why the final argument on the writing of examination by Examiner Mr. Dinh that was unusual and violate the stipulation of

USA patent law? I beg your pardon that above complains to you of my misfortune, this is a problem of human rights too! America's country-defense benefit will not get really, because, today's agreement does not stands for tomorrow's view. On morals, this is the most dirtiest scandal on human history!

For instance, there is this uncle's neighbor whom often ill-treats his child and they are always quarreling. But the neighbor's child very capable and he has helped the uncle to repaired his fence whenever he has to, the uncle is very glad and guaranteed that his will get his pay. But the neighbor was envious and planned a bad idea. Therefore, the neighbor took out a treasure and presents it to him and as expected, the uncle was interested in it. The neighbor said that the treasure can only be exchanged under some condition and it was forbid the payment of the repair-wages of fence for his child! The neighbor was entice as this! The uncle agreed by the enticed and even his daughter was passing malicious remarks aim at the neighbor's child. However, in the end, the neighbor has changed the host and though the poor child help the uncle to repair the fence, even though the uncle knew that he was being deceived but his child still wondered everywhere to sell the medicine-prescription.

This story has mistake probably, Dear Dr. Julie L. Gerberding is not the uncle's daughter, but must to remind the trade is shameful and it can hurt the image of civilization and damaged benefit of the public and leave bad name on the medical history!

In my invention and guided to defeat cancer that had been reported a success in the hospital of Hong Kong! The fear of mankind for cancer will also become history as SARS! Many patients were waiting for government popularize to save, any conceal historical fact is a kind of fault! So I hope that your Centers can test and give straight comment for my invention.

Thank you very much for your attention on this matter, I hope to hear from you at the soonest.

Yours faithfully,

Dear.

Dr. Julie L. Gerberding

I am very much regret that I brought up again my letter to you on Nov.03, 2003. Though you did not reply, but I had seen the honor of President Mr. Bush had committed himself to the democracy tested in China at the meeting for promotes democracy on Nov.06, 2003. I believed in which is concerned with and the leader of America could insist fair viewpoint of value for leading world.

Taiwan erupting the SARS using to provoke the nerve of China, the Taiwan, HK and China's governments was perform not honest in front of whole world again!

It's clear that the national sanitary research institute and disease pipe department of Taiwan Gov. was also begging to deceived in front of medium on October 31, 2003. They lied about the Niclosamide of stomach medicine had gotten world to pay attention and special efficacy for cure SARS and application in America patent already!

Today, only passed 47 days of today, they do not mention the announcement-world was surest the magical of the "Stomach kill insect medicine" could cure the SARS!?

In the news, the sanitary the authorities of Taiwan deny that Chinese Gov. was identification could cure the SARS of serum treated method, they bring up again which had serious side effect and effect limited of the steroids.

Do not say by the news that confirms, before near the Chinese company of life insurance appear on the market in America, they were distributed many stocks right of confirmation to relevant control medium of master. I had also seen some American report before near the exchange rate between Sino-US government compete stubborn in American medium had too much sound sympathetic China!

Here, the relation in confirm that should be forever impossibility, but in the international society of reality, which had a medium of representative of the fair sound to expose above-mentioned the lie between government? Whether it is to shown the civilization of our society was being ruined already! This is the theme that international leader will care for perhaps, what today will discuss with honors Excellency that related us:

1. Relevant report points out that now in America, the flu will die a lot person perhaps;
2. My invention of cure SARS influence shall be cure all any various flu, my invention had applied for PCT patent and publication include America of PCT contract-country on Nov. 20, 2003. At the same time this patent already application in US Patent Office.

The essence of cold is that once human body can fight bacterium ability was dropped, the lung has become the training-base of germ in atmosphere, What is worth for to rejoice is that the germ in atmosphere is not fearful mostly, mankind also subsists so.

The human body fight-bacterium ability drop to come from any body internal and external reason produce probably, the essence of flu was to let lung suck in high-density germs surmount the human body the limit of fight-bacterium ability. But some germs vitality was strong especially, for instance H5N1 poultry flu viruses and so on, therefore the air of high-density germs is also not absolute.

The SARS influence was a kind of in a epidemic cold, because this kind of germs are especially little that it is follow the floating-dust of air to spread easily and can breed on the between the quality and layer of lung, the place of between the quality and layer of lung was blood-vessel not cover again, therefore, the any success by antibiotic and the vaccine to cure that was impossible, so the death rate is very high!

Obviously, it can cure SARS as the invention can also cure any kind of epidemic cold efficiently

that include the H1N1, H3N2, H5N1 poultry flu viruses and popular at present the "Fujian type" cold of America and so on. The mail of today was want to make remind for respectful Dr. Julie L. Gerberding which application and recognizes the medical method of "Surface Treatment of SARS-Infected Lungs" will save a lot of valuable lives of American.

In the news report today by your CDC, 42 children die due to originating in flu so far in US, your disease control and prevent center(CDC) start urgent action center again! The only one and is most effective to put into the lung of medicine only our invention, the face was be cannot deny in the medical circle and it is simple to use and confirm! Using to prevent death openly that conform to humanitarianism and American-spirit!

Our invention has been published openly through PCT and registration in the US patent office before the August of this year, therefore, our intellectual property have power requirement to get American law protect, your disease control and prevent center get authority to save life is no other better options for the medicine and medical method and it cannot postpone again. (Please see the attach file of PCT patent document) Therefore, reselling the patent of application right and using right is a reasonable one, my requirement is not high, I hope to discuss this matter with you and hear your view!

Attachment 1 is the focal point of invention describes and includes the method of compounding of the PFC and ozone. The attachment 2 is that a tracks number from US patent office and the notice of credit card sign by US patent office on Aug. 13, in 2003, the bank of HK paid on Sep. 08, 2003. But applicant's inquiries do not have any reply. I hope to respect Dr. Julie L. Gerberding assistance.

Hope to hear from you soon! Merry Christmas and a Happy New Year!

Yours faithfully,

PCT/SG03/00145 application in US patent office does not receive the application No.

My daughter had conversation with you about my tracking number [T20031207001N] in the morning.

I am applicant of PCT/SG03/00145, the title of invention is "Surface Treatment of SARS-infected Lungs" and I had send the apply form to US patent office by register mail on July.29, 2003, so I had received a bill from the bank of credit card that was USD \$530.- of US patent National fee paid on Sep.08, 2003.

Attach my Credit card payment-form below, the data shown enough by the form that could be tracking my application number in US patent office easily:

Commissioner of Patents
Washington, D.C. 20231

Dear Sir/ Madam,

I am applicant of PCT/SG03/00145, the application Number in US patent office is 10/469,063, but I did not receive the Corrected Filing Receipt at the present moment. Please send it to me as soon as possible.

Because the search authority of Austrian Patent Office had mistaken for my Claims of PCT Patent, therefore, I basis on the Article 19 and 34 of PCT law to changed the claims, the amendment claims was divided for two different editions and with the amendment specification filed in PCT on December. 12, 2003.

Therefore, I send the amendment documents are below:

- | | |
|---------------------------------------|-----------|
| 1. Amendment specification | One copy; |
| 2. Marked-UP Substitute Specification | One copy; |
| 3. Substitute Specification | Two copy; |
| 4. Abstract | Two copy; |
| 5. Substitute Claim | Two copy; |
| 6. Substitute figure (Fig1-6) | Two copy; |

Please file in my application. I would like to inform you that I will be using the claims B use in my application.

I ask sincerely that you inform me the publication date!
